The Brewery

Established in 2009, we are a family run business who's main objective has been to bring back the art of brewing to the centre of Kirkby Lonsdale. Nine years, 33 different beers and a huge dose of hard work later we have established two brewing sites and a tap house to showcase our brewing team and their creations at The Royal Barn in Kirkby Lonsdale.

Each beer we brew is named or linked to an aspect of the town and its history and we continue to build relationships with local businesses and organisations to get our produce through as many outlets as we can.
